## School Vision and Mission

Faithfully following the teaching advocated by the Lord Jesus, our school has been upholding the mission of the founding group of the Chinese Sisters of the Immaculate Conception (C.I.C): "to go into all the world and preach the gospel to every creature" (Mark 16:15), in accordance with the spirit of Jesus' love and the Catholic education philosophy, to make an effort to educate the next generation.

Our school is dedicated to providing holistic education to help them develop spiritually, morally, intellectually, physically, socially and artistically, so that they can treasure life and get spiritually and intellectually prepared for their future.

We are also committed to assisting students to develop independent and critical thinking and cultivate a sense of civic and social awareness so that they can exercise correct value judgement on social issues. It is hoped that they can make a contribution to the society and serve all mankind, as well as understand Chinese culture and have a passion for life.

Five core values of Catholic Education *Truth, Justice, Love, Family, Life*

## Teacher Professional Training and Development

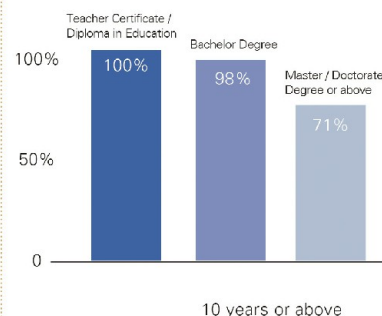

School Managers, Supervisors, Principal and teachers participated in the school-based teacher professional development programme

Having rich teaching experiences, our teachers are patient and warm-hearted. Different teams cooperate on a regular basis for lesson preparations, peer observations and sharing among teachers and schools. Our school also organizes different kinds of courses, workshops and programs for teachers both at school and outside the school to enable them to be familiar with the latest educational trends, classroom strategies and teaching effectiveness. Each year, there are at least three Staff Development Days for professional exchanges and collaboration.

Open classrooms were conducted to improve teaching profession

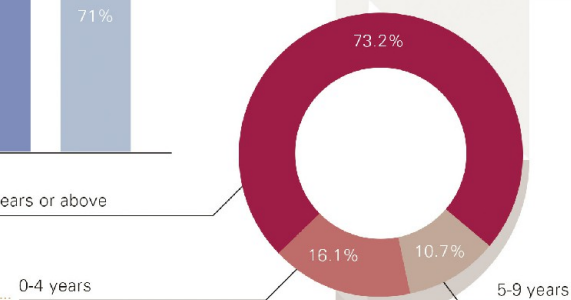

### Qualifications

### Total number of teachers in the school

56, including one Native-speaking English teacher

### Teaching Experiences

## Class structures

There are 4 classes in each level of S1 to S6. In senior secondary curriculum, four subjects are taught in English, namely Physics, Chemistry, Biology and M2.

### Subjects offered in junior secondary curriculum

Religious Studies\*, Chinese Language, English Language, Mathematics\*, Science\*(S.1-S.2), Physics(S.3), Chemistry(S.3), Biology(S.3), Life and Society\*, Computer Literacy\*, Putonghua, Chinese History, History\*, Geography\*, Visual Arts\*(S.2-S.3), Technology and Living\*, Physical Education\*, Music\*, Drama Education (S.1), STEM(S.1-S.2)

### S1 and S2 English Immersion Class

Mathematics, Science  
(Some of the modules are taught in English)

### Compulsory subjects offered in senior secondary curriculum

Chinese, English, Mathematics (one of the classes is taught in English), Liberal Studies(S.5-S.6), Citizenship and Social Development(S.4)

### Elective subjects offered in senior secondary curriculum

Ethics and Religious Studies, Chinese History, History, Economics, Visual Arts, Geography, Tourism and Hospitality Studies, Business, Accounting and Financial Studies, Technology and Living (Fashion Design)

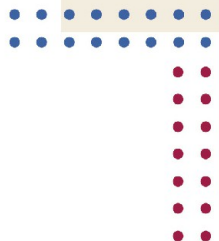

### Elective subjects offered in senior secondary curriculum using EMI

Physics, Chemistry, Biology, Mathematics Extended Part Module 2

### Other subjects in senior secondary curriculum

Physical Education, Religious Studies

\*Subjects with extended learning activities (ELA) in English

## Using English as the Medium of Instruction

To enhance students' English proficiency through increasing their exposure to authentic English outside the class, hence widening their horizons and strengthening their general knowledge, a number of English activities are regularly held by our NET and the English Ambassadors, including Peer Reading Programme, Guided Reading Programme, English Week and Cross-curricular Fun Day. This year, our school has successfully applied for the Quality Education Fund to implement a two-year English Drama Project. It is hoped that the project will stimulate students' interest in learning English, enhance their confidence and creativity in using English, as well as improve their speaking skills.

Moreover, there are English Immersion Classes in S1 & S2, in which some of the modules in Mathematics, Science, History and Geography are taught in English. Meanwhile, a number of subjects offered in the junior secondary curriculum are taught with extended learning activities (ELA) in English to increase opportunities for students to use English as a medium and motivate them to acquire English skills for further studies, leisure activities and work.

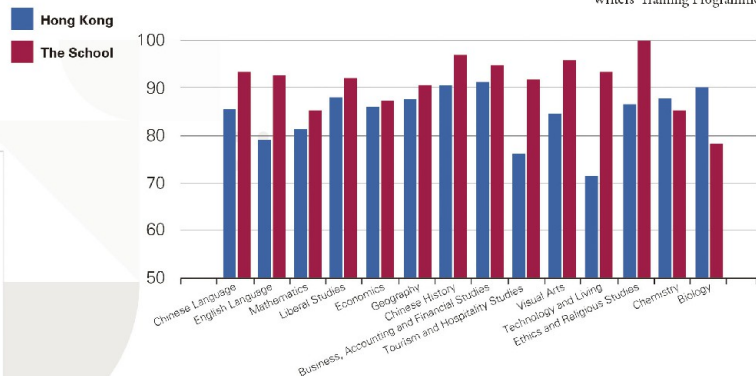

## Academic Achievement

As a result of our teachers' and students' hard work, students performed satisfactorily in public examinations. Firstly, in the Diploma of Secondary Education Examination, 12 subjects' pass percentage was on par with the territory's average and some subjects reached positive value-added scores of 7 to 9. A majority of subjects showed a rise in the pass percentage of 13% when compared with last year's data. Secondly, students' performance in the Territory System Assessment was encouraging. Almost all students reached the Basic Competency Level in Chinese, English and Mathematics with the passing percentage of the three subjects on par with the territory's average.

Since 2013, our school has had a total of 215 graduates pursuing a Bachelor's degree at local universities. In the academic year of 2019-20, over 80 of S6 graduates were successfully enrolled in a Bachelor's degree programme or an associate's degree / a Higher Diploma programme, mainly offered by the University of Hong Kong, the Chinese University of Hong Kong, the Hong Kong University of Science and Technology, the Hong Kong Polytechnic University and Hong Kong Baptist University.

Our students' academic achievement has been recognized by the awards they received. Our graduates won a number of prominent awards, including the Harvard Book Prize Scholarship, the Link University Student Scholarship and the Outstanding Student Award in the Kwun Tong Outstanding Students Election. It is worth noting that one graduate was selected by the International Youth Programme, which nominated only 11 students to represent Hong Kong to go overseas for a cultural exchange, to visit Ireland.

## Self-directed Learning

### Taking initiative for all stages of the learning process

We put emphasis on cultivating students' self-learning habits. It is believed that through teaching students note-taking skills, helping them set learning goals and asking them to keep reflective learning journals, students can be more organized, self-disciplined and responsible for their learning. They are required to reflect on and evaluate their learning experience so as to gain a clearer view of their learning progress. Hence, their learning effectiveness will be enhanced.

### Junior Secondary Remedial and Enhancement Classes

To cater for learner diversity, after-school remedial and enhancement and classes in Chinese, English and Mathematics are run for junior secondary students with different learning abilities. It is believed that students' confidence and learning motivation can be boosted.

### Senior Secondary additional classes

We design organised additional-class schedule for our senior secondary students. For secondary four and secondary five students, they need to attend additional classes after school from Tuesday to Thursday. Students are divided into groups according to their abilities. To equip secondary six students with better exam skills, our school runs after-school classes and arrange students to take part in different mock exams organised outside school.

### Strengthening summative assessment

Our school aims to establish regular study habits for our students. Systematically, each subject takes turn to have a half-hour test every Monday morning. It is our hope that this will provide our students a rigorous learning atmosphere and improve their academic performance.

### Implementing E-learning at school

Although students have to learn from home because of COVID-19, the determination of teachers and students to acquire knowledge is still unstoppable. Teachers use tablets and various e-learning tools for online teaching in the hope that students can keep up with their learning progress. To facilitate learning and teaching, teachers undergo regular Covid-19 testing so that students can resume face-to-face lessons as soon as possible. In the coming school year, our school will implement the "Bring Your Own Device Programme (BYOD)" to stimulate students' learning interest and strengthen the learning effectiveness.

## Positive Attitudes and Values

Through a wide range of activities, our school aims at guiding students in their exploration for their strengths, unleashing their potential, cultivating students' gratitude and enhancing their resilience so that they can embrace challenges with grit and appreciate their own talents. Hence, they are able to develop positive attitudes and values to confront difficulties with hope.

## Diversified Learning Activities

Our school provides more than 50 extra-curricular activities covering academic, interest, sports, art and religious areas in order to give our students the most comprehensive and the richest learning experience. We aim to extend classroom learning and let students have a balanced development on ability, knowledge, values and attitude so as to realise our objective in education, i.e. education on spiritual, moral, intellectual, physical, social and aesthetic aspects. With a wide range of extra-curricular activities, students are able to grow and develop individual potential. Besides, students are strongly encouraged to take part in various social services, joint school activities and inter-school competitions.

## Exchange Programmes

We strongly encourage our students to join different exchange programmes organised by our school or other parties. The programmes not only provide students with an opportunity to attend an overseas school, but also expose them to a different culture and enrich their student life. Importantly, it extends their own personal competitiveness for future career development. These years, various exchange programmes have been established in China, Australia, New Zealand, South Korea etc.

Parents gave tea bags to teachers

## Home-School Cooperation

Different events like parents' talk, annual dinner and DIY activities are held by the Parent Teacher Association (PTA) each year. It forms a parent-teacher network to facilitate the growth of the students in line with the School Mission. In order to promote the cooperation between parents and the school, Parents' Day is organised every year to invite parents to meet with class teachers and learn about the performance of their children at school. Furthermore, class teachers maintain close contact with parents and collect their opinions about the school. Undeniably, the PTA serves as an important platform to provide two-way communication between the school and the parents.

Green School Bronze Award

## Social Service

Upholding the five core values of Catholic Education, our school emphasises and cultivates the spirit of love among students and society. Students are encouraged to participate in diverse community services such as home visits to the elderly, charity sales and flag day. Throughout the activities, students are able to realise that the underprivileged minority needs more love and attention from our society as a whole.
