School Vision and Mission

Faithfully following the teaching advocated by the Lord Jesus, our school has been upholding the mission of the founding group of the Chinese Sisters of the Immaculate Conception (C.I.C): “to go into all the world and preach the gospel to every creature” (Mark 16:15), in accordance with the spirit of Jesus’ love and the Catholic education philosophy, to make an effort to educate the next generation.

Our school is dedicated to providing holistic education to help them develop spiritually, morally, intellectually, physically, socially and artistically, so that they can treasure life and get spiritually and intellectually prepared for their future.

We are also committed to assisting students to develop independent and critical thinking and cultivate a sense of civic and social awareness so that

they can exercise correct value judgment on social issues. It is hoped that they can make a contribution to the society and serve all mankind, as well as understand Chinese culture and have a passion for life.

Five core values of Catholic Education: Truth, Justice, Love, Family, Life

Teacher Professional Training and Development

Having rich teaching experiences, our teachers are patient and warm-hearted. Different teams cooperate on a regular basis for lesson preparations, peer observations and sharing among teachers and schools. Our school also organizes different kinds of courses, workshops and programmes for teachers both at school and outside the school to enable them to be familiar with the latest educational trends, classroom strategies and teaching effectiveness. Each year, there are at least three Staff Development Days for professional exchanges and collaboration.

English Ambassadors

English Cafe

English learning programmes and activities

To enhance students' English proficiency through increasing their exposure to authentic English outside the class, hence widening their horizons and strengthening their general knowledge, a number of English activities are regularly held, including English Debating Club, English Elite Debate Team, English Drama for Actors and Stage Crew and so on. More able students are recruited as English Ambassadors who are trained to run regular English learning activities for fellow students such as crafts, English Cafe, English Day, song dedication,

and English broadcasts about SAGC news. Cross-curricular learning activities are also organized with other departments such as making paratha rolls and sticky rice puddings and playing sports games. In order to strengthen students' English, after-school tutorials are held such as Springboard Enrichment classes for gifted students and Remedial classes for less able and hardworking ones. All these activities are to stimulate students' interest in learning English and enhance their confidence in using the language.

Religious Education

Our school puts emphasis on religious education, which aims to let students understand Jesus is our role model in practising love and serving others. With the objective of nurturing students to have a positive attitude to cherish life and admire Jesus, all subjects have incorporated five core values of Catholic Education into the formal school curriculum. Besides, in order to promote positive Catholic values amongst students, they are encouraged to participate

in different community services such as serving the underprivileged families and joining the 'Charity Lunch box for the Needy' event. It is also hoped that students' spirituality will be fostered through various regular religious practices and activities, including morning prayers, prayer gatherings, Bible study competitions, religious assemblies, visits to the home for the elderly.

Positive Attitudes and Values

Through a wide range of activities, our school aims to guide students in their exploration of their strengths and unleash their potential as well as to cultivate students' gratitude and enhance their resilience so that they can embrace challenges with grit and appreciate their own talents. Hence, they are able to develop positive attitudes and values to confront difficulties with hope.

SAGC Blood Donation Day

History education wins multiple awards

We encourage students to express positive values, exemplified by historical figures and events, through various mediums beyond writing. Our students achieved success in the 13th Inter-school Competition of Project Learning on Hong Kong's History and Culture, which was co-organized by the Hong Kong Museum of History and The Hong Kong Institute for Promotion of Chinese Culture. We are pleased to announce that we have won the 1st Prize in the Junior Division (Multimedia Production) and the 4th Prize in the Senior Division (Multimedia Production). Additionally, two student teams were both awarded the Creativity Award in the Junior Secondary History e-Reading Award Scheme 2023, which was jointly organized by the Education Bureau and the University of Hong Kong.

Develop students' physical fitness

The Physical Education Department aims to develop our students' physical competence in order for them to build a lifelong active and healthy lifestyle. The department also cultivates students' generic skills, such as collaboration, communication, creativity, critical thinking and aesthetic appreciation. Teachers collaborate with different subject departments, professional bodies and organizations to provide various physical activity opportunities for our students and nurture positive values and attitudes. Students are also encouraged to do sports and exercise from school to home to increase physical activities and enhance their health.

Celebrating Constitution Day

Sister school visit - Affiliated School of Jinan University for Hong Kong & Macao Students

Enhance students National Identity

In order to enrich students' understanding of the history and culture of the motherland and enhance their sense of national identity, our school organizes a variety of activities and competitions repetitively. For example, we went to our sister school, Dongguan Chittagong Hong Kong and Macao Children's School, to organize prize-winning quizzes, booth games, book

fairs with themes on the Constitution, Basic Law, and National Security Law, and hold different Chinese cultural activities such as tea ceremonies. In this way, students were provided with the opportunity to be exposed to Chinese culture and create a sense of national pride in the broad and profound Chinese culture.

Read Happily

Reading is the key to unlocking knowledge and cultivating creativity. Therefore, our school is committed to cultivating students' interest and ability in reading. Our school holds a Reading Unlimited FUN, where students work in groups to make videos to share their reading results. We also held a Reading Carnival and Chinese Culture Day. Students used their creativity to design booth games to incorporate reading into the game. At the same time, various subject teachers cooperate to promote subject-based electronic reading and create cross-subject reading exercises to strengthen students' reading abilities and broaden their reading horizons. Coupled with other reading activities and competitions, the campus has a strong reading atmosphere.

Patrick Lam shared his reading experience with students

Reading Carnival and Chinese Culture Day

School picnic day at Ocean Park

Diversified Learning Activities

Our school provides more than 50 extra-curricular activities covering academic, interests, sports, art and religious areas in order to give our students the most comprehensive and the richest learning experience. We aim to extend classroom learning and let students have a balanced development of ability, knowledge, values and attitude, so as to realize our objective in education, i.e. education on spiritual, moral, intellectual, physical, social and aesthetic aspects. With a wide range of extra-curricular activities, students are able to grow and develop individual potential. Besides, students are strongly encouraged to take part in various social services, joint school activities and inter-school competitions.

First kayak memory at Outwardbound

Home-school Cooperation

The school has a strong tradition of home-school cooperation. We strengthen communication and connections between school and families through the PTA Annual General Meeting and Parent Days. We invite guests to share their experiences with parents and children. In the past few years, we have invited Mr. Mak Yun Sau, Mr. Sammy Leung Chi Kin, Mr. Chiu Tsang Hei and others. to share with parents how to

get along with their children and how to talk about life planning with their children. We organize a number of parent-child activities, such as volunteer services, parent-child tours, parent-child workshops and more. The PTA also actively participates in school events such as Aesthetic Night, Graduation Ceremony, and the IMC Meetings.
